If the estimated amount is found to be different from what you used, the under or over billing for the estimated period will be corrected with the next actual reading obtained by the TDSP. In some cases you may receive a Corrected bill.

If you have any questions about the accuracy of your meter reading, please remember you can visit [reliant.com/readmeter](http://reliant.com/readmeter) to view instructions on how to perform a self reading of your meter. If the reading you obtain is less than the reading used to bill your account (shown as the "Current Meter Read" in the Service Address section of your bill), please call the "TDSP" to request that they re-read your meter. Thank you for being a valued Reliant customer.
