THANK YOU!

## Notes

This invoice was generated on September 28, 2021 and payment is due on October 28, 2021.

Please remit to: PO Box 2030, Folsom, CA 95763 USA

This contractor and subcontractor shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, national origin, protected veteran status or disability.

ALL CUSTOMER TERMS AND CONDITIONS ("TS & CS") RELATING TO THIS ORDER, WHEREVER LOCATED, ARE SUBJECT TO THE IGNITION BY INDUCTIVE AUTOMATION® SOFTWARE LICENSE AGREEMENT ("IASLA"). IF THERE IS A CONFLICT BETWEEN CUSTOMERS TS & CS AND THE IASLA, THE TERMS OF THE IASLA SHALL CONTROL. BY USE OF THE IGNITION SOFTWARE, YOU AGREE TO THIS REVISION TO YOUR TS & CS.

### Support

---

No Support Plan

### Description

---

To add Support to your license contact [sales@inductiveautomation.com](mailto:sales@inductiveautomation.com)

## Activation Instructions

---

Your software activation is delivered electronically as a six-digit code, or license key. There is only one activation per key. Use this license key to activate the software through the Ignition Gateway.

- If you have purchased a new license follow the New License Activation procedure
- If you have purchased additional modules for an existing license, follow the Updating an Existing License procedure
- To move the license from one server to another follow the Unactivating an Existing License procedure followed by the New License Activation procedure

For complete instructions please refer to the Licensing and Activation section of our User Manual:  
<https://docs.inductiveautomation.com/>

## New License Activation

### Online Activation – Ignition Gateway has internet connectivity

1. Navigate to the Config Section on the Gateway Webpage <http://localhost:8088>.
2. From the menu on the left, select System > Licensing.
3. Click the Activate License button.
4. Enter your License Key and click Submit.
5. Click the Activate button.

The Licensing page will refresh, and your Current License will be successfully activated.

### Offline Activation – Ignition Gateway has no internet connectivity

When you do not have an internet connection on the installation machine, you must activate your license manually.

1. Navigate to the Config Section on the Gateway Webpage <http://localhost:8088>.
2. From the menu on the left, select System > Licensing. Click the Offline Activation button.
3. Click the Download Activation Request. An activation request file, called `activation_message.txt` is generated.
4. Take the `activation_message.txt` file to a machine with Internet access and go to Support Home Page.
5. Click Choose File and select the `activation_message.txt` file.
6. Once you upload the `activation_message.txt` file, a license file called `license.ipl` is generated.
7. Bring the `license.ipl` file back to the computer on which you're licensing Ignition.
8. Back on the Offline Activation page, upload the `license.ipl` file. Then click Activate to finish the process.

The Licensing page will refresh showing your license was successfully activated.

## Activation Instructions Continued

---

### Updating an Existing License

If you added one or more new modules to an existing license, then you'll need to update (Reactivate) the license.

1. If the gateway has internet access, you update a license from the Config > Licensing section on the Gateway webpage.
2. Simply click the Reactivate button next to the license that was changed. Pressing the Reactivate button will cause the gateway to attempt to reach out to our licensing server, and will update shortly after.

If the gateway does not have internet access, contact your Sales Representative to have your license reset.

### Unactivating an Existing License

If you want to activate Ignition on a different server, you must first unactivate it on the current server.

1. To unactivate the Gateway navigate to the Config section of Gateway Webpage.
2. From the menu on the left, select System > Licensing. Click on the Unactivate License icon.
3. A Licensing / Confirm Unactivate window will appear asking you to confirm the unactivation. Click the Yes, Unactivate button.

It may take a minute or so for the request to finish. The unactivation request will be sent to Inductive Automation's licensing servers, and the license will again be available for activation on another Gateway.

### Emergency Activation

In cases where you may have a hardware or OS failure and you cannot unactivate a license, Ignition provides an Emergency Activation mode. In this mode, you can temporarily activate your license for 7 days giving you enough time to contact Inductive Automation Support. Activating your license in emergency mode is exactly the same as activating with your normal license, you don't have to do anything different because Ignition handles it all for you.

# Remittance Information

Please see the following options on how to remit your payment

## Electronic Payments

---

### Credit Card:

Email [accounting@inductiveautomation.com](mailto:accounting@inductiveautomation.com) with the invoice number and email address of the payer. A link will be sent to the payer's email in order to pay online.

### Automated Clearing House (ACH):

ZB, N.A. dba  
California Bank & Trust  
ABA routing number: 121002042  
Account number: 5790368079

### Wire Transfers:

ZB, N.A. dba  
California Bank & Trust  
ABA routing number (domestic): 121002042  
Swift code (foreign): ZFNBUS55  
Account number: 5790368079

Include your order number in the payment details field, and email remittance information to [accounting@inductiveautomation.com](mailto:accounting@inductiveautomation.com)

## Check Payments
