Great News! No more EU roaming charges

Dear customer,

Over the last years, the EU has been working to abolish roaming charges across the EU. Truphone pioneered 'borderless mobile plans' by launching Truphone World in 2014 – with our all-inclusive bundle of calls, SMS and data in 66 countries.

We are delighted to let you know your plan has now been automatically updated to be all-inclusive for EU/EEA countries, thus you don't need to do anything.

Any changes will be reflected in your bill and are effective **15th June 2017**.

What's new for European customers:

Customers on all our plans will benefit from:

- Free EU-wide On-net calls (with the same country code) – within and between any EU/EEA countries, along with Hong Kong, USA, and Australia.
- Receiving calls and SMS in the EU/EEA is free.
- Calls now being charged by the second across the EU.

If you happen to be on one of our local plans then:

- All EU/EEA countries are included in-bundle.

There will be no changes to your out-of-bundle rates when roaming in the EU/EEA countries for voice, SMS and data.

BREAKDOWN BY USER

Chargeable calls from within the UK to UK number ranges 08 (business rate), 09 (premium rate) and 118 (directory enquiries) are made up of an Access Charge and a Service charge. The Access Charge is retained by Truphone and charged at a rate of €0,36 per minute. The Service Charge covers the costs of receiving the call and payment for the service being provided. Truphone does not retain the Service Charge.

Page 19 of 19

Need more information?

Changes to the countries included in-bundle

We have added more countries in-bundle, so your users can make more calls and use more data in more countries within their existing plan. A full country list is available at truphone.com. In-bundle pricing for these additional countries may not be available to customers on older Truphone plans and you may need to upgrade. Bringing more countries in-bundle may mean you use your existing bundle faster, so you may need to increase your allowance. If you need to upgrade or increase your allowance, please contact the Truphone Help Team.

Monthly recurring charges explained

Any charges that recur monthly (such as, the monthly cost for a plan or add-on) are charged at the start of your billing period. Additional usage is charged at the end of the period.

Data charges and rounding calculations

Some devices periodically connect to online services such as mail servers, so small amounts of data usage may appear on your bill that users are not aware of. We consolidate charges into a single entry for each destination per day, but a breakdown of individual charges is available upon request. Please note that small discrepancies may appear in your invoice and CSV bill totals due to rounding differences when we calculate your bill. For example, individual entries may not add up to the total itemisation per user. This is because the itemisation total is the actual amount you are charged, calculated to four decimal places but rounded to two decimal places. For more information, please contact the Truphone Help Team.

What are Truphone's payment terms?

Truphone's term provide 30 days for you to pay your invoice, starting from your invoice date. We recommend that you allow five working days for your payment to reach us.

Who is Truphone B.V.?

Truphone B.V. is a private limited company under Dutch law registered in the Kingdom of The Netherlands and a wholly owned subsidiary of Truphone Limited, a limited liability Company registered in England & Wales. Truphone is a trading name and registered trademark of Truphone Limited.

Something amiss?

If there's anything missing from your bill, don't worry. Some events take a while to come through, but it will show up on an subsequent bill!
